- xx) Carrying out the pot heading & scaling of cables.

#### **19. THE DUTIES OF SR. JOINTERMATE /JOINTER:**

Sr. Jointer mate / Jointer in grade P1/T5 should have to assist the Sr. Jointer in preliminary work with regards to EHV cable joints and terminations. Sr. Jointermate / Jointer has to perform all the duties of Sr. Jointer while (i) St. Jointing of HV &LV cables (ii) “T” jointing of LV cables (iii) terminations of HV &LV cables, (iv) pot heading & sealing of HV &LV cables;

In addition to this, he shall have to perform following duties :

- i) Fixing of cut outboards;
- ii) Providing proper earthing to the meter cabin, service cable towards consumer end;
- iii) Transporting the jointer hand cart to the jointing sites;
- iv) Assist T6 Jointer for carrying out 33kV Joint as well as 33 kV termination;
- v) To maintain the jointer hand cart & jointer tools box;
- vi) Proper fixing of glands & lugs;
- vii) Proper soldering of ferule and lugs;
- viii) To carry out proper bitumen taping in case of HV / LV St. Joints and “T” Joints;
- ix) Taking necessary precautions to avoid dust and moisture while jointing by installing the tent over jointer pits. To ensure that the tent is accident proof (mechanical and electrical)
- x) Give the proper instructions & measurement to carry out the cable preparation for different types of HV / LV and “T” Joints as well as termination.
- xi) Filling of inner and outer compound with necessary care and precautions;
- xii) Taking proper precaution and advice of site in-charge should carry out “T” joints in live in case of emergency;
- xiii) To carry out the backfilling of jointer pit after completion of jointing work;
- xiv) To carry out the cutting, sealing and pot heading of cables.

**20. THE DUTIES OF JOINTERMATE:**

Jointer mate has to assist the Jointer in preliminary works with regards to HV / LV cable joints and terminations.  
He shall have to perform all the duties of Jointer.

**21. THE DUTIES OF FITTER**

General fitting, fitting, drilling, grinding, tapping, rebitting, cutting, shearing and fabrication of angle iron / sheet metal works such as fabricating M.S. Shells, cubicles, ADPs, SLPS, L.V. Boards, other non standard pillars etc. at workshop or any other place of the Undertaking.

- i) Erection of substation equipment such as HT / LT switchgears, transformers, capacitor banks, etc.
- ii) Overhauling / reconditioning of substations equipment such as HT / LT switchgears, transformer, ADPs, SLPs, L.V. Boards, capacitor banks, etc. either at workshop or any other place of the Undertaking.
- iii) He shall have knowledge of various workshop machineries, (cutting, drilling, shearing, press brakes, grinders, hydraulic machines.), portable machines either of power driven on pneumatic operated as as to he shall skilfully operate them or to carry out overhauling reconditioning of general purpose or specific major minor workshop machineries, etc. either at workshop or at any other place of the Undertaking.
- iv) To fabricate dies templates molds as specified on a drawing or as suggested by his superior.
- v) To terminate cables in transformer dividing box, coupling of L.V. Boards links either on live or on dead position as per specific demand of that situation.
- vi) Arranging for testing of new / service cable / faulty equipment such as transformer and switchgears for determining the nature of fault and assess the possibilities of reconditioning them in workshop with the help of Dy.Engr. / Sub Engr. workshop.
- vii) He shall be conversant with basic mathematical operation i.e. reading, subtractions, addition, of the dimensions in fractions and decimals.
- viii) To fabricate jobs as specified on a drawing.
- ix) He shall have basic knowledge about various sections materials, rivets used in construction / fabrication work.
- x) To help the superior for inspection of new / old / faulty items whenever required.

**22. THE DUTIES OF Sr. MUCCADAM/ MUCCADAM ( P1/T4 & P1/T3):**
