- xxiii) Arranging for posting of Security staff to guard chowkey and cable drums and other materials at work sites.
- xxiv) Arranging for transport of equipment / materials such as , transformer, switchgears, cables, etc.
- xxv) Checking, testing and inspection of equipments before commissioning.
- xxvi) Checking tools and equipment and sending damaged tools / equipments to kussara for repairs / reconditioning.

- xxvii) Supervising laying of pipes at night whenever required.
- xxviii) Maintaining necessary records and registers.
- xxix) Checking different proforma prepared by Dy. Charge Engineer before submitting them to the Deputy Engineer.
- xxx) Preparing 'weekly off' schedule of the Security Guards and other staff, in advance.
- xxxi) Driving the Undertaking's vehicles during the course of his duties.
- xxxii) Arranging for inspection of damaged / obsolete equipments by Audit staff before scrapping.
- xxxiii) To issue work requisition for reconditioning of pillars.
- xxxiv) Arranging for getting sundry materials fabricated in the workshop whenever necessary.
- xxxv) Planning an efficient execution of US, UC, OCS work orders received from Customer Care Department.
- xxxvi) Collection of data in connection with the execution of work orders.
- xxxvii) Checking progress of work and controlling labour on various jobs.
- xxxviii) Ensuring closing of work orders in time.
- xxxix) Testing every new service for correct phase and neutral connection.
- xxxx) In case of accident arranging to take the injured person to the nearer dispensary / hospital for attention and informing the concerned authorities.
- xxxxi) To carry out phasing of HV Feeder cable before final jointing / Termination work, whenever establishing new feeder cable, repairing of HV Feeder cable faults, terminating HV feeder cable in Switchgear etc. Reporting to the Superintendent / Assistant Engineer in case of cross phasing or wrong polarity detected during the execution of work.

- xxxxii) To give information of RTI applications, as and when asked by DEEN.
- xxxxiii) To clear the bills of various Contractors such as HDD, Cable laying, Equipment movement etc. Also maintain the record / data of output of all such contractors (outsource).
- xxxxiv) To lodge the Police Complaints, in case materials / equipments stolen from Chowkey / Site under his control. Also inform to concern Security Officer BEST and to submit the details report of Stolen / Theft case to AEEN / SEN / DEEN.
- xxxxv) To maintain discipline at Chowkey and various sites, among the staff and officers working under his control and to take administrative action, as and when require for maintaining the discipline, as per the BEST rules and regulations.

6 THE POWERS AND DUTIES OF CHARGE ENGINEER

- 6.1 The Charge Engineer shall work under one of the Deputy Engineers and his specific duties shall depend on the exigencies of the Department, which shall be decided by the Superintendent / Assistant Engineer. He shall perform the following duties.
- i) Supervising the execution of schemes.
 - ii) Preparing worksheets for day to day jobs.
 - iii) Studying the schemes in detail and assessing the number of men and material required for the job.
 - iv) Arranging for necessary permission required from the ward office of MCGM and the Police authorities wherever required.
 - v) Allocating work to the staff working under him.
 - vi) Engaging work orders for different jobs.
 - vii) Preparing requisitions for material for the execution of jobs undertaken by him.

- viii) Preparing credit notes for excess materials left over or released at the job sites.
- ix) Transporting jointer's materials to the job sites in time.
- x) Checking attendance of staff and materials at work sites.
- xi) Sending staff attendance / job sheets to kussara office in time.
- xii) Arranging for a standby whenever required.
- xiii) Closing work order after checking and crediting materials.
- xiv) Collection of data in connection with the execution of schemes.
- xv) Checking progress of work and controlling labour on various jobs.
- xvi) Informing various utilities regarding damage to their equipment / cables etc.
- xvii) Preparing reinstatement notices after taking measurements.
- xviii) Follow up the reinstatement work in private properties with XEN(BS) / Supdt.(BS) of Building department and ensuring its proper execution.
- xix) Arranging for removal of debris from work sites.
- xx) Filling in various forms, such as leave forms, accident forms, Provident fund, meal allowance forms and writing job sheets and handing them over to the Deputy Engineer in respect of the staff working under him whenever required.
- xxi) Preparing cost sheets for chargeable jobs.
- xxii) Giving first – aid to the injured persons and taking them to hospital whenever necessary.
- xxiii) Arranging for posting of Security staff to guard chowkey and cable drums and other materials at work sites.
- xxiv) Arranging for transport of equipment / materials such as transformer, switchgears, cables, etc.
- xxv) Checking, testing and inspection of equipments before commissioning.
- xxvi) Checking tools and equipment and sending damaged tools / equipments to kussara for repairs / reconditioning.
- xxvii) Supervising laying of pipes at night whenever required.
- xxviii) Maintaining necessary records and registers.

- xxix) Checking different proforma prepared by Charge Engineer before submitting them to the Deputy Engineer.
- xxx) Preparing 'weekly off' schedule of the Security Guards and other staff, in advance.
- xxxii) Driving the Undertaking's vehicles during the course of his duties.
- xxxiii) Arranging for inspection of damaged / obsolete equipments by Audit staff before scrapping.
- xxxiv) To issue work requisition for reconditioning of pillars.
- xxxv) Arranging for getting sundry materials fabricated in the workshop whenever necessary.
- xxxvi) Planning an efficient execution of US, UC, OCS work orders received from Customer Care Department.
- xxxvii) Collection of data in connection with the execution of work orders.
- xxxviii) Checking progress of work and controlling labour on various jobs.
- xxxix) Ensuring closing of work orders in time.
- xxxix) Testing every new service for correct phase and neutral connection.
- xxxx) In case of accident arranging to take the injured person to the nearer dispensary / hospital for attention and informing the concerned authorities.
- xxxxi) Arranging to provide necessary footboards over the trenches.
- xxxxii) Arranging to provide necessary protection to trenches against accidental hazards.
- xxxxiii) Complying with the statutory requirements of MCGM in respect of displaying information on the notice board.
- xxxxiv) Informing the appropriate authorities in case of damage to the other utility services.
- xxxxv) Checking the inventory of materials with the Muccadams directly.
- xxxxvi) Deciding the cable route after taking trial holes.

- iv) To check & send E-mail, e-office as per instructions.
- v) Certifying the work for routine maintenance or repairs of computers.

11. SENIOR JOINTER (P1/T6) :

Sr. Joints working in the department is directly responsible for making all types of joints and termination of 22kV / 33kV cables. Sr. Joints shall work under Dy. Engineer and his specific duties shall depend on exigencies of the department. The staffs working under the Sr. Joints are Joints in grade P1 / T5 – 1 no., Perm. Nawghany in grade P1 / T1 – 3 nos. He is the in-charge of Joints Tool bag hand for which the permanent gate pass is given to transport the tool bag along with the prescribed materials to the respective jointing site.

He shall perform the following duties :

- i) Carrying out the joints pit of required dimensions as per types of joint and as per site conditions.
- ii) Allocating work to the staff working under him.
- iii) He shall take necessary precautions while installing tent over joints pit so as to make it dust free, moisture free, accident proof (mechanical and electrical);
- iv) In case of water seepage, water leakage occurring in the joints's pit, the Sr. Joints shall make necessary arrangement of water draining. Further he shall make necessary arrangement of safe guarding joints's tent and his staff in case of heavy rains.
- v) Carrying out the jointing job with taking necessary precautions in case of water pipe, gas pipe or any other live cables existing in the pit.
- vi) Carrying out the cable preparations by giving appropriate measurement to staff for joint in hand.
- vii) Identification of ends, of cables and should assist to Dy. Engr. carrying out for phasing operations.
- viii) Providing proper lighting arrangement in the tent and observing safety measures.

- ix) Proper measurement should be given for the preparation of cable in case of 22kV / 33 kV terminations and power transformer secondary cable termination.
- x) To carry out uniform heat shrinking of insulating tubes in case of non conventional heat shrinkable joints.
- xi) Providing necessary earthing to the both cable ends while jointing as well as termination.
- xii) Proper mixing of hardener & raisin compound with necessary precautions.
- xiii) Submission of damaged tools to the site in-charge and get the replacement in time.
- xiv) Taking periodic inventory of materials, tools stored in tool box, reviewing and checking the entries made in permanent gate pass, arranging for required materials, tools.
- xv) Transporting the jointer tool box to the jointing sites.
- xvi) After completion of jointing work shall carry out backfilling of joint pit.
- xvi) After completion of jointing works shall removes the tent and submit the extra tools and scrap to the site in-charge.
- xviii) Directly responsible for the job, therefore, should have the knowledge of each type of joint (measurement for cable preparation and procedure of joints) and types of cable.
- xix) Carrying out the pot heading & sealing of cables.

12. JOINTER (P1/T5) :

Sr. Jointer mate / Jointer in grade P1/T5 should have to assist the Sr. Jointer in preliminary work with regards to EHV cable joints and terminations. Sr. Jointermate / Jointer has to perform all the duties of Sr. Jointer while (i) St. Jointing of HV & LV cables (ii) "T" jointing of LV cables (iii) terminations of HV & LV cables, (iv) pot heading & sealing of HV & LV cables.

In addition to this, he shall have to perform following duties :

- i) Fixing of cut out boards;
- ii) Providing proper earthing to the meter cabin, service cable towards consumer end;
- iii) Transporting the jointer tool box to the jointing sites;
- iv) Assist T6 Jointer for carrying out 33kV Joint as well as 33 kV termination;
- v) To maintain the jointer tools box;
- vi) Proper fixing of glands & lugs;
- vii) Proper crimping of ferule and lugs;
- viii) To carry out proper case of HV / LV St. Joints and "T" Joints;
- ix) Taking necessary precautions to avoid dust and moisture while jointing by installing the tent over jointer pits. To ensure that the tent is accident proof (mechanical and electrical)
- x) Give the proper instructions & measurement to carry out the cable preparation for different types of HV / LV and "T" Joints as well as termination.
- xi) Proper heating soldering pot.
- xii) Taking proper precaution and advice of site in-charge should carry out "T" joints in live in case of emergency;
- xiii) To carry out the backfilling of jointer pit after completion of jointing work;
- xiv) To carry out the cutting, sealing and pot heading of cables.

13. FITTER (P1/T4) :

General fitting, fitting, drilling, grinding, tapping, rebitting, cutting, shearing and fabrication of angle iron / sheet metal works such as fabricating m.s.shells, cubicles, ADPs, SLPs, L.V. Boards, other non standard pillars etc. at workshop or any other place of the Undertaking.

- i) Erection of substation equipments such as HT/LT switchgears, transformers, capacitor banks, etc.

- ii) Overhauling / reconditioning of substations equipments such as HT/LT switchgears, transformer, ADPs, SLPs, L.V. Boards, capacitor banks, etc. either at workshop or any other place of the Undertakings.
- iii) He shall have knowledge of various workshop machineries, (cutting, drilling, shearing, press brakes, grinders, hydraulic machines.), portable machines either of power driven on pneumatic operated as as to he shall skilfully operate them or to carry out overhauling reconditioning of general purpose or specific major minor workshop machineries, etc. either at workshop or at any other place of the Undertaking.
- iv) To terminate cables in transformer dividing box, coupling of L.V. Boards links either on live or on dead position as per specific demand of that situation.
- v) Arranging for testing of new / service cable / faulty equipments such as transformer and switchgears for determining the nature of fault and assess the possibilities of reconditioning them in workshop with the help of Dy.Engr. / Sub Engr. workshop.
- vi) He shall be conversant with basic mathematical operation i.e. reading, subtractions, addition, of the dimensions in fractions and decimals.
- vii) To fabricate jobs as specified on a drawing.
- viii) He shall have basic knowledge about various sections materials, rivets used in construction / fabrication work.
- ix) To help the superior for inspection of new / old / faulty items whenever required.

14. JOINTERMATE (P1/T4) :

Jointer mate has to assist the Jointer in preliminary works with regards to HV / LV cable joints and terminations.

He shall have to perform all the duties of Jointer.

15. MASON (P1/T3) :

Mason shall be responsible for performing following duties :

- i) He shall have ability to use spirit level, square, plumb line and all other tools in connection with masonry work. He shall know about proper mixing of cement, sand, water, and metal, either manually or using hand driven batch mixture machine.
- ii) He shall construct RCC foundations, cement frogs, and any other RCC articles as per given sketch / specimen.
- iii) He shall carry out reinstatement of concrete and tiles flooring, fixing rag bolts in walls, either at Workshop / Substations or at any other place of the Undertaking.
- iii) He shall carry out minor repairs / addition / alteration to civil structure such as plastering, making foots steps, fixing door frames etc.
- v) Also he shall carry out general cleaning and preventive maintenance of tools / equipments / machines pertaining to his trade.

16. JR. MASON (P1/T2) :

Jr. Mason has to assist the Mason in preliminary works with regards to masonry work.

- i) He shall have to perform all the duties of Mason.

17. MUCCADAM (P1/T3) :

The following are the responsibilities and duties in respect of Muccadam in grade P1/T3.

- i) He should lay HV & LV cables on footpaths and carriageway.
- ii) He should control, supervise and guide the Nawghanies and casual labourers etc. working under him.
- iii) He should have knowledge about excavation and cable laying.
- iv) He should guide the staff working under him for High Voltage and Low Voltage cable laying and special job pertaining to the work.

- v) He should read sketches of house and Street Lighting services and mains schemes plans.
- vi) He should be able to receive and transmit the messages on telephone whenever necessary.
- vii) He should identify the material and equipments collected from the Materials Management Dept.
- viii) He should supervise the working staff for movement of transformer and switchgear.
- xv) He should give directions to the Crane man while lifting the heavy material.
- xvi) He should have sound knowledge of the other depts. of the Undertaking.
- xi) He should also have the knowledge of local authorities like MCGM, Govt.Offices etc.

18. M.V. DRIVER (P2/G3) :

MV Driver shall work under the supervision of Dy. Engr. / Sub Engr. He shall carry out the following duties :

- i) Driving motor lorry, Tower wagon, Tractor, Station Wagon or Motor Car as per directions.
- ii) Ensure that there is enough petrol / HSD Oil and engine oil in the vehicle and that the Radiator is topped up.
- iii) In case of accident, arranges to remove injured pedestrian to Hospital and gives complaint with all particulars to Traffic Inspector or to Officer concerned.
- iv) Attend to minor break-down tyre puncture etc. reports to Motor Vehicle Department to send Line Fitter in case of heavy break downs.

19. NAWGHANY (P1/T1) :

Nawghany shall be responsible for performing following duties :

- i) Excavation and reinstatement of road for laying, repairing and replacing of cables.
- ii) Pulling of cables from the drum and laying into trenches.
- iii) To carry materials, tools or articles from the nearby depot with the help of tool box or by hand as per requirement.
- iv) To help Jointer & Jointer mate in their work e.g. to clean the tools, to heat mixtures, to solder plumbing, to clean the joint pits for draining of water.
- v) To carry new or old material from Stores Dept. or from Chowkey, Section where the old material are kept and to carry it to Stores or to carry it from one dept. to another dept.
- vi) Loading and unloading material, equipments, tools etc. into vehicles.
- vii) To work as Security Guard on the place of work whenever is needed.
- viii) To dispatch the mail in dept, sub offices whenever is needed.
- ix) To keep the record of day to day work.
- x) To lift and move the machine and its spare parts related to departmental work, breaking down of walls, boring holes, digging the trenches, performing such types of laborious works.
- xvii) To transport the tools, cleaning material, departmental papers, stationary etc. from one place to another for from departmental sub offices to any other site of work.
- xviii) To assist the officer and supervisory staff while carrying out the repairing and maintenance work and cleaning the vehicle utilized for departmental use.
- xix) Assisting the Shop recorder, Clerk and Supervisory staff at the time of procurement and issuing the store materials.

- xx) Assisting the Tradesmen and to carry out unskilled work under their guidance.
- xv) To inform about unforeseen / accident by telephone or by other means and to remain there as standby till any help is received.
- xxi) To do any unskilled work pertaining to receiving station / substation or its plant or machinery under supervision and guidance.
- xvii) While working in shift, it is to confirm that whether sufficient water is there in coolers and clay pots.

11 THE DUTIES OF TRADESMEN

The following categories of Tradesmen / Assistant Tradesmen, etc. are normally working in the different sections of the department as shown against them:-

Tradesmen / Assistant Tradesman			Section of the Dept.	
Jointer Network	Tradesman	⌋	a)	HV & LV
Jointermate	Asst. Tradesman	⌋		development
		⌋	b)	Services
Fitter Network	Tradesman	⌋	a)	HV & LV
				development

Asst. Fitter	Asst. Tradesman	⌋	b)	Services
Carpenter Network	Tradesman	⌋	a)	HV & LV
Cabinet maker	Tradesman	⌋		development
		⌋	b)	Services
Painter (Senior) Network	Tradesman	⌋	a)	HV & LV
Painter (Junior)	Tradesman	⌋		development
Wireman	Tradesman	⌋	b)	Services
Muccdam	Tradesman	⌋	a)	
Mason	Tradesman	⌋	b)	

6. WORK SHEET

6.1 To enable proper control to be kept on the execution of outdoor work and allocation of labour, a worksheet is prepared by the Sub Engineer, one day in advance of each working day.

6.1.1 A worksheet is prepared by Sub Engineer / Charge Engineer of the section which shall contain the following data:-

- i) Name of the Dy. Engineer / Sub Engineer in charge of the section.
- ii) Classification of personnel (Permanent and temporary) and check nos. of the non – scheduled staff.
- iii) Total number of persons.
- iv) Location code nos. with detailed activity wise codes.
- v) Location of works – reference of the scheme plan / layout plan / work orders / SIMHA – 97 schemes.
- vi) Type of work.
- vii) Indication in the form of letter 'D' where a draughtsman is booked.

4.(b)(iii): The Procedure followed in the decision making process, including channels of supervision and accountability :-

DEEN – SEN – AEEN – Dy.Engr(EN) – Sub Engr. – Ch. Engr.
DEEN - AAO(EN) – Supervisor.

4.(b)(iv): The norms set by it for the discharge of its functions :-

-: As per Manual :-

4.(b)(v): The rules regulations, manuals and records held by it or under its controls or used by its employees for discharging functions:-

-: As per Manual :-

4.(b)(vi): The statement of the categories of documents that are held by it or under its control:-

1. Various Administrative Reports Statements pertain in to staff matters i.e. Appointment, Promotion, Transfer, Attendance, Allowance, Separations etc.
2. Various files, Registers, Statements, related to Work Orders, Schemes, MERC Reports etc.
3. Advance Payments / Security Deposits towards RI to MCGM

4.(b)(vii): The particulars of any arrangement that exists for consultation with or representation by the members of the public in relation to the formulation of its policy or implementation thereof:-

-: NIL :-

4.(b)(viii): A statement of the boards, councils, committees and other bodies consisting of two or more persons constituted as sits part or for the purpose of its advice, and as to whether meetings of those boards, councils, committees and other bodies are open to the public or the minutes of such meetings are accessible for public:-

-: NIL :-

4.(b)(ix): A directory of officers and employees:-
