

CUSTOMER CARE 'B' WARD

MANUAL

(CHAPTER II – Section 4 of RTI Act 2005)

CHAPTER II – (Right to Information and obligations of public authorities)

1.0 Section : 4 (b) (i): The particulars of its organization, functions and duties

The particulars of department :-

Address	Grd. Floor, BEST Bhavan, BEST Marg, Colaba, Mumbai-400001
Contact No. (Tel.)	22799541 / 22856262 Extn. 541

1.1 ORGANISATION :

- 1.1.1 The Customer Care Department of the Electric Supply Branch is headed by Chief Engineer (Customer Care) & further it is divided into three zones, viz. North (E), North (W) and South for administrative convenience. The overall in-charge of the zone is Deputy Chief Engineer (Customer Care).
- 1.1.2 The South Zone is again divided in four ward viz. A,B,C & D and North (W) Zone is divided in four wards Viz. E, G(S), G(N) & SIMHA and North (E) zone is divided in two wards viz. F/S & F/N. The overall in-charge of the ward is Divisional Engineer (Customer Care).

1.2 ESTABLISHMENT :-

- 1.2.1 The Chief Engineer (Customer Care) shall be overall in charge of the Customer Care Department. The staff of the Customer Care Department consists of the Dy. Chief Engineer, Divisional Engineer, Superintendents (ES), Assistant Engineers, Dy. Engineers, Sub Engineers, Charge Engineers, Asst. Administrative Officer and subordinate staff as may be sanctioned from time to time as per establishment schedule.

1.3 The functions and duties of Customer Care Department :-

- 1.3.1 To release electric supply under various categories on receipt of application.
- 1.3.2 Installation & replacement of meters.
- 1.3.3 Maintaining continuity of supply.
- 1.3.4 To attend on priority the Fire, Electrical Shock and Building Collapse messages.
- 1.3.5 Maintaining all records of consumers such as billing details and other related details.
- 1.3.6 Observing the Electricity Act 2003, Indian Electricity Rules 2005 & MERC Regulations 2005 framed there under and suggesting amendments to them.
- 1.3.7 Providing liaison between the consumer and the Undertaking vis-à-vis all technical and commercial matters and routine billing.
- 1.3.8 Installation Foreman's Section i.e. installing new meters, C.T. meters, removing meters against MRA's, replacing meters against SMS, Fabrication of new bus bar, maintenance, Erection of

new subs services, installation of prepaid meters etc. Replacing meter for routing O.T. Replacing meters against EDP SM advice. It also involve in wiring of standard meter boards and SIMHA 97 boxes.

- 139 Taking monthly reading of consumers and supplying necessary data to the EDP / Billing Engine for billing them/ Attending all types of exceptions generated by the system and taking remedial majors for attending these exceptions / Disconnection & Recovery of electricity dues / Preparation of supplementary bills in case of defective meters / Stopped / Burnt as per the provisions of MERC Regulations 2005 under Section 15.4.1 / Preparation of claims for unauthorized use of electricity under section 126 of Electricity Act 2003 / Attending all types of billing and electricity supply related complaints / Reporting of fatal / Non fatal electrical accidents as per Annexure XIII to the competent authority.

1.4 PROCEDURAL WORKING OF THE CUSTOMER CARE DEPARTMENT

Rules Governing the Supply of electric power :-

The supply of energy is normally governed by :

- 1 The Electricity Act 2003 & MERC Regulations 2005, as amended from time to time.
- 2 The Electricity Rules made under the Indian Electricity Act.
- 3 The Bombay Electricity (Special Powers) Act, 1946 and the orders issued by the Government there under from time to time.
- 4 The Undertaking's sanctioned conditions of supply 'Conditions and Miscellaneous Charges for the Supply of Electrical Energy;.

14.1 Service connection for low voltage supply:

- 1 Requisitions for electric supply under Electricity Act. 2003, clause 43 shall be received in the prescribed form (Annexure-1) at all the wards of Customer Care departments by the Divisional Engineers.
- 2 Every requisition for electric supply shall be accompanied by a registration fee of `50/75/100/200 which is non-refundable.

14.2 Service quotations/estimates of costs:

- 1 Whenever a requisition is registered for taking new service, Service Assistant for Services (SAS) visits the site for getting details i.e. nearby references (ADP No., Pole No., Name of Road or any other reference) and prepares rough sketch. This rough sketch is sent to Planning Department. A correct block plan (Service sketch) is received from Planning, in which distributors, nearby applicant's premises are marked. SAS again visits site with the sketch and marks applicants premises and takes measurements from nearest supply point to service cabin.

- 2 On sketch, applicant's premises is marked, proposed service cabin is shown, pipe laying by

applicant in private property and by BEST in public property is shown, manholes at each 15 meters are shown, also proposed 'T' of service is shown on distributor.

- 3 SAS prepares draft quotation and sends to DYE and AE for approval. After approval, service quotation is prepared by the service clerk with all conditions and compliances mentioned in it.
- 4 Applicant approaches with letter mentioning that site compliances are ready. Same is inspected by SAS and if compliances are done, payment, if any, is thereafter accepted.
- 5 After payment and paper compliances, service sketches are prepared and work order is sent to Erection Department for execution.
- 6 After work completion report of laying service cable is received from Erection Department, first meter is sanctioned by DYE. (Annexure-5) Applicant makes necessary payment of connection fee and deposit with Test Report (T.R) of Licensed Electrical Contractor (LEC). After payment, Installation Inspector inspects site. If all necessary requirements are met, then connection order is sent to Installation Section to install the meter and meter is installed.

143 Ownership of service lines:-

- 1 The service line is the property of the Licensee by whom it is maintained (Bombay G.R. No. 5365 of 02.10.1924.)
- 2 The Undertaking is, therefore, entitled to supply energy to other consumers through this service line and in order that the staff of the Undertaking may have access to the service position for this purpose, a written undertaking should be obtained from the consumer in the prescribed form (vide Annexure- 6 to 9) to the effect that he would have no objection to the meters, switches, etc., of other consumers being installed in the above service as and when occasion arise.

144 Wiring of consumer's premises:

- 1 For the protection of the consumers and the public in general, it is necessary that the wiring on the consumers premises should conform to the Indian Electricity Rules, and the Rules of the fire Insurance Company in terms of which the building is insured and be carried out by a Licensed Electrical Contractor.
- 2 As soon as the consumer's installation is completed in all respects and tested by the consumers contractor, the consumer shall have to submit to the Undertaking the Licensed Electrical Contractor's Work Completion Certificate and Test Report' in the prescribed form (Annexure-11).
- 3 As required by Electricity Act 2003 , no electrical installation work (including additions, alterations, repair and adjustments to existing installation), except such as replacement of lamps, fans, fuses, switches and other component parts of the installation as in no way alters the capacity or character of the installation, shall be carried out upon the premises on behalf of any consumer or owner, except by an Electrical Contractor licensed by the Government in this behalf and under the direct supervision of a certificate of competency issued by Government.

145 Fixing of meters by the Undertaking :

- 1 Upon receipt of a work completion report and Test Report, from the consumer's LEC, Undertaking shall proceed with the fixing of meters and coupling them with the consumer's installation, preparatory to the inspection and testing of the Installation and connection of supply, consumer's Wiring contractor shall ensure that each installation is properly identified by a tag or otherwise at the point of supply and that sufficiently long lead wires are provided for connecting the installation to the meters.
- 2 In case of installation already on supply requiring a separate meter viz. a sub division of an installation, meters shall be installed after inspection and testing.

146 Inspection and testing of installations by the Undertaking :

1. After the compliances are received, connection order is prepared for checking the installations. The Undertaking shall notify the applicant/LEC, the time and the date the Undertaking's representative proposes to inspect and test the installations, in cases where such appointments are asked for. It shall then be the duty of the LEC to arrange for his representative to be present at the time of inspection to give the Undertaking or its representatives any information or assistance required concerning the installation.
2. No connection with the Undertaking's supply mains shall be made until the consumer's installation has been inspected and tested by the Undertaking and found satisfactory. No charge shall be made for the first inspection and test by the Undertaking, but subsequent inspections and /or tests rendered necessary by any faults and for defects found on the previous test shall be charged for in accordance with the schedule of charges given in our General Conditions of Supply.
- 3 Before the insulation test of the installation is taken the wiring must be completed in every respect. All appliances such as lamps, fans, coolers, motors, etc. shall be connected, fuses inserted or switches set in "ON" position before the tests are carried out. Temporary wiring of fittings or dead ends shall not be included in the installation no part of the work shall be left incomplete.
- 4 The Insulation Resistance (I.R.) of the entire installation to earth shall be tested from the terminals of consumer's main switch or fuses near the service position.
- 5 No connection shall be given unless the Service Assistant is reasonably satisfied that the connection will not, at the time of making the connection, cause a leakage from the consumer's conductors and fittings exceeding one five thousand part the maximum supply demanded on the consumer's premises.
- 6 If after the receipt of the necessary test report from the LEC the installation is inspected and found to be defective and as a consequence of the supply could not be connected, the consumer shall be notified of the defects, by our notice ESL-55 A/55 B (Annexure-13). In cases where notice ESL – 55A is served, a second visit fee is charged in accordance with the schedule of charges, given in the General Conditions of Supply.

147 Issue of work order and connection orders :

- 1 Work order for laying, shifting or changing to higher capacity of a service line is issued to the

Erection Dept. after all requirements are complied with (vide Annexure-36)

- 2 Connection orders for Tappings, Extensions, Part of Installation, Reconnections and / or alterations to the existing load is issued to the Installation Foreman after all requirements are complied with (Annexure-12).
- 14.8 Use of Consumer's materials and Connection Orders :
- 1 Consumers shall not be permitted to supply materials for erecting service lines. In special cases and for recorded reasons, Consumer's materials may be used with the permission of the General Manager. This does not apply to temporary connections given during the temporary illuminations, etc. where sanction of the Divisional Engineer shall be sufficient.
- 14.9 Service Holders permission :
- 1 Service holders permission is not required because all the services up-to 300 meters distance is laid by BEST free of cost.
- 14.10 Disconnection of defective installations :
- 1 Whenever installations are found defective because of heavy leakage which is likely to endanger life and/or property, supply is immediately disconnected after verbally informing the consumers under Electricity Rule 2005 and our standard ESL –38 B notice is sent to the consumer, within 24 hours (See Annexure-16) In case of disconnection of a large number of meters, a notice giving meter numbers and defects is pasted at the service position by inspection staff.
 - 2 Whenever installations are found defective because of minor leakage and / or minor wiring defects constituting a potential source of danger to life and/or property and waste of energy and/or minor defects adversely affecting the maintenance and security of our meter installations is also a possible source of danger to the consumers, our standard notice ESL-38 A (Annexure-19 & 20) is served on the consumer, and if the installation is not put in order before the specified date, the supply is disconnected by the Undertaking.
- 14.11 Un-authorized extensions :
- 1 Whenever unauthorized extensions on consumer's installations are detected, our standard notice ESL 38 c (Annexure - 25 to 28) is served on the consumers asking him to regularize the load and if not regularized, is processed as per the directives of the management by initiating action as per provisions of section 126 of Electricity Act, 2003.
- 14.12 Completion Certificate :
- 1 When the defects mentioned in the notices served have been rectified, the consumer shall forward to us the completion certificate from their Licensed Electrical Contractors on the prescribed form (See Annexure-29).
- 14.13 Progress of Requisitions :
- 1 Enquiries from new applicants for supply of energy are answered by our standard letter and a requisition form is sent to the party (Annexure-1).

- 2 To ascertain the progress of work of any application made by the consumer, the movement of requisition is maintained in computer every day. The progress of requisitions involving new service lines is maintained separately by service clerk (SCL). The progress of requisition where T.C. is prepared is maintained separately by T.C. Clerk (T.C.C.)
- 3 Every requisition for electric supply is registered and a registration number is given to each in serial order and a receipt for the registration fee is passed. Details of name, address, load, purpose etc. are entered in computer ward-wise.
- 4 For loads of 25 kw and above we prepare TC (Technical Clearance)
 - i) Up-to 75 kw load, TC may be cleared by D.C.E.C.C. and load may be sanctioned or it may be forwarded to DEPL (N) as per DCE(CC)'s decision.
 - ii) Above 75 kw load and for each new construction TC is sent to Planning Department for clearance.
 - iii) TC from Planning Department may be cleared with the remark of (i) load may be released on existing service, (ii) L.V. Network strengthening is required to be done. (iii) Spare capacity is available, (iv) Sub-station is required to be established in applicant's premises, etc.
 - iv) TC comes to Customer Care Department after clearance and then processed.
- 5 In case, it is not possible to connect the load on the existing network as per DEPL(N), advice, negotiations for establishing a substation are initiated and the load is released after intimation from the Deputy Chief Engineer.
- 6 After the requisition is sanctioned, our requirements are intimated to the consumer by our standard ESL-4 letter (Annexure-10)
- 7 Whenever any application is incomplete or requires further clarification, our standard letter ESL-9 (Annexure-14) is sent to the consumer to call at our office.
- 8 In case the supply is to be given by laying a new service line in the building, after investigation, a service quotation giving all our requirements is sent to the applicant (See Annexure-30).

14.14 New connections :

- 1 Details of requisitions for new service cases are maintained in a special register by service clerk.
- 2 After the connection order of installation of meters is issued to the Installation Foreman, the progress of such connection is maintained in the connection order register.

14.15 Reconnection :

- 1 If for any specific reasons, such as defects etc., on the consumer's wiring the installation has been disconnected, it is necessary for the consumer to pay a reconnection fee according to

the schedule of charges given in the “General Conditions of Supply” and to submit the completion certificate from the L.E.C.

- 2 If the meter is disconnected for non-payment of electric bill then for reconnection of the same there are two types, valid reconnection and lapsed reconnection.
- 3 In case of valid reconnection, the consumer apply within six months of meter removal. In this case Investigation and Installation Inspectors are not sent on site. The consumer is required to pay all the arrears and their meter is sanctioned.
- 4 Lapsed reconnection is the case when the consumer applies after six months of disconnection of meter. This is treated similar to tapping case. The consumer is required to pay arrears as well as connection fee, deposit etc.

14.16 Cancellation of requisitions:

- 1 If the applicant does not comply with our requirements within the stipulated time, the requisitions are cancelled (Annexure – 15).

14.17 Agreemental Consumer’s Section :

The duties and responsibilities of Agreemental consumers section are as given below :

- 1 To take the readings of L.V. Agreemental consumers monthly and forward the same to EDP Department for billing, processing.
- 2 To forward the HV Agreemental and HV Non-Agreemental Consumers readings received from MRE Department to EDP Department for billing.
- 3 Putting up proposal for :
 - i) Increase/decrease in contract demand.
 - ii) Change of tariff from ordinary tariff to Agreemental.
 - iii) Change of tariff from Agreemental to ordinary tariff.
 - iv) To prepare monthly MIS of Agreemental consumers.
 - v) Attending complaints related to LV as well as HV Agreemental consumers.
 - vi) To maintain records of all Agreemental consumers.
 - vii) To arrange for outages as per consumer’s request in consultation with O & M and MRE Department.

- viii) To arrange for disconnection of Agreemental consumer after disconnection memo received from Customer Care Department for nonpayment
- xi) To monitor the bills sent by Consumer Department for Agreemental consumer.

14.18 Damaged meters:

- 1 Whenever meters are reported to be damaged on consumers' premises a representative of the Customer care Department is deputed to investigate the matter and submit full details about the nature of the damage. The meter is replaced by another unit and the damaged one is returned to the Meters and Relays Department for repairs. The cost of repairs is billed to the consumer after getting a report from MRE Department about the nature of damage. (Annexure- 37 & 38)
- 2 A deposit is accepted from the consumer to cover the cost of the damages in cases where the damage to the meter results in discontinuance of supply.

14.19 Dispute regarding accuracy of the meter :

- 1 When consumers dispute the accuracy of the meter they are required to pay a testing fee as per the schedule given in the conditions of the supply. For testing the meter with complaint section (IGR cell), subsequently, official testing S.M. slip is prepared by and it is forwarded to Installation Section for replacing the disputed meter. The disputed meter is sealed in the presence of the consumer and brought in to be tested in the Meters Department. The consumer is notified by Meters Department of the day and time of the test by standard letter in order to give him an opportunity to be present when the test is carried out. After the test is completed, the Meters Department advises the Customer care Department of the results of the test. The consumer's bills are then adjusted, if necessary. (Annexure-39)

14.20 Stopped meters :-

- 1 Whenever it is found that meters have stopped working, after consecutive same readings or drop in consumption, EDP/ KLG Department forwards exception to Customer care department. After getting the exception memo investigations are carried out by Customer care department and stop meter advices are initiated and forwarded to Installation Section. The consumer is advised in writing that the meter will be replaced by another meter in the recent future. The stopped meter is replaced by a new tested meter. (Annexure- 40 to 46)

14.21 Collection of fees :

- 1 At the close of the day, the collected cash is handed over to the Cash Department through a remittance slip (See Annexure-31). The cashier maintains a register or 'Revenue Stamps'.
- 2 Memos for meters lost, damaged or damaged beyond repair. etc., are prepared after obtaining the cost of repairs and other particulars from the Meter Testing Department. These service are pre-fixed with serial MEN and MES for Customer care Department – North and South zone respectively.

- 3 Memos for services laid, meters installed, and other work carried out for State Government bodies are prepared on the basis of quotations and after obtaining the job cost sheets from the Customer care Department. These series are prefixed with the serial 'SDN' and 'SDS' over the Customer care Department (North) and (South) respectively.
- 4 A refund bill voucher for amounts received for laying services, installing meters, as deposits etc. but work not carried out are prepared in the bill voucher form.
- 5 A register is maintained for recording the amounts paid to BPT for way leave purposes. These amounts are subsequently recouped and recorded in this register.

14.22 Preventive Maintenance Section

1 The activities of Preventive Maintenance Section are as follows :

- i) Routine Maintenance :- The work of Preventive Maintenance of service position is carried out as per complaint letters received from the consumer.
- ii) During monsoon the work is carried out as per 38 B Notices wherein the service positions are in dangerous condition. The deteriorated meter boards are replaced as per requirement.

14.23 Minor Maintenance :

1 Replacement of Branch C/OS and Leads.

14.24 Bus-Bar Arrangement :

1 The work of providing bus bar at the service position as a part of preventive maintenance to old services is carried out by using (a) 1"x1/4" (b) 1 1/2" x 1/4" and (c) 2" x 1/4" Aluminium strips or by using 50 sq.mm. copper wire.

14.25 Mass Replacement :

1 Mass Replacement of Clock type meters are required to be carried out also meters aged above 15 years to be replaced.

14.26 Stop Meters :

1 A list of stopped meters is received from EDP/KLG Department for replacing these Single phase/Three phase meters by new Single phase/Three phase meters and record of these meters in the format "912" given by EDP/KLG Department is forwarded to Customer care, B.C and EDP/KLG Department.

14.27 Fuse messages :

1 The details of no-current message are recorded on a printed fuse message form by our representative who attends to the call.

1428 Fuse message register :

1 It is the duty of the Fuseman at the fuse stations to receive the 'No current' message and, when received, to render prompt service in restoring the supply. He shall enter the messages in the register kept for the purpose. Whenever Fuseman visit the consumers' premises for attending the no current messages, they are required to complete a form (Annexure-32) and forward the same to the office the following morning. For the purpose of further investigation, if necessary and for the recovery of Fuseman attendance charges he has also to report messages attended by him in a separate form (Annexure-32)

1429 Emergency Fuse Service:

1 The Undertaking has in all 8 fuse services stations functioning in the Electric Supply system to render 24 hours service to consumers in the event of failure of electricity, shock, fire, building collapse etc. The details of these stations are as follows :

Sr. No.	Name of the Fuse Control	Address	Area covered under Fuse Control
1	Dadar	Gala No. 5, Pariwahan Bhavan, Dadar	Dadar, Naigaon, Wadala, Sion, Chunabhatti, Matunga (E), Antop Hill, Parel
2	Suparibaug Officers Qtrs.	Suparibaug, Suparibaug Road, Parel	Mumbai Central, Darukhana, Rey Road, Lalbaug, Parel, Sewree, Mazgaon, Byculla, Lower Parel (E)
3	Mahim	1 st Flr., Mahim Bus Station, Mahim	Veer Savarkar Marg, Matunga (W), Dharavi, Sitladevi, Mahim
4	Wadala (SIMHA)	Wadala Bus Depot Porta Cabin	All hutment areas of F/South, F/North, G/South, G/North & E wards
5	Worli	Near Nandu Satam's Shiv Sena Office, Ganapatrao Kadam Marg, Worli Naka, Worli	Prabhadevi, Tardeo, N.M. Joshi Marg, Worli, Lower Parel (W)
6	Pathakwadi	Vidyut Bhavan, Pathakwadi Road, Near G.T. Hospital	Girgaon, Kalbadevi, C.P. Tank, SVP & VP Road, Khetwadi, Gulalwadi
7	Tardeo	Tardeo Bus Depot, R.S. Nimkar Marg,	Peddar Road, Grant Road, J.J. Hospital, Malbar Hill, Walkeshwar
8	Colaba	Shahid Bhagatsingh Road, Colaba Causeway, Colaba	Backbay, Fort, Nariman Point, Hutatma Chowk
9	Masjid	Masjid Receiving Station, Two Tad St. Dongari	Dongari, Umarkhadi, Mazgaon (C), Masjid Bunder, Bhendi Bazar

1430 Stolen meters :

- 1 Whenever a meter is reported to have been stolen from the consumer's installation, the matter is investigated and the meter is replaced after obtaining deposit from the consumer equivalent to the cost of the meter, FIR from nearest Police Station. The cost of the meter is obtained from Meters Department and the date when the meter was last read is obtained from the Customer care department with copies endorsed to I.A DECC and MCA. Bill for the recovery of the cost is then sent in the regular manner. (Annexure-47)

1431 Change of ownership ;

- 1 If a consumer tasking over the premises from the previous occupant desires to effect change of ownership of the existing installation, he shall submit a requisition to our Customer care Dept. who shall deal with the matter.
- 2 The change of ownership of motive power installations is governed by Govt. orders regarding control of electricity issued from time to time. These cases are referred by Customer care Consumer Dept. to this department and advice is given to them after necessary verification. (Annexure-48 to 54)

1.4.34 Pre-arranged shut down of the consumer's installation:

- 1 An advance intimation regarding temporary disconnection of supply to a consumer for the purpose of testing the supply mains for any maintenance work is send by our post card.

1.4.35 Appointment for keeping the premises open for our inspection.

- 1 When premises are found locked at the time of inspection of the Installation for connection of supply to it and appointment is made with the consumers by our post card, to keep the premises open at the time of next inspection.

1.4.36 Notice for removal of meter lying idle.

- 1 Whenever a meter has been lying idle on a particular installation, for over a Customer Care Department month, after disconnection of supply, the consumer is intimated accordingly and the meter in question shall be removed from the installation.

1.4.37 Removal and Replacement of meter :

- 1 Special forms called SM slips are used to send notifications to the Installation Foreman for replacement of meters.
- 2 Meter Removal advice showing details of meters to be removed from installations.
- 3 An intimation to the Installation Foreman to remove a meter, supply through which has been disconnected, is called Meter Removal Advice, giving details of the meter number, installation number and the name and address of the consumer.

1.4.38 Notice regarding damage meters

- 1 The consumer is informed when the meter hired to him is damaged and the bill for the cost of

repairs and replacement charges, if any, is also forwarded to him.

1.4.39 Records :

- 1 Records of services, installation and meters are required to be maintained for an indefinite period. The original papers kept separately and the details regarding load particulars are maintained on cards giving the dates on which the loads are connected, number of meters, name of the consumer, for quick reference (See Annexure-33), Installation card.
- 2 Motive load is entered on a pink card (Annexure-34).
- 3 Original papers are filed in serial order according to the installation number and kept separately in the records section of the department.
- 4 Service cards : These are yellow in colour (Annexure-35) on which details of all installations on the service, service holder's name, size of service alongwith the date on which such services are laid, are recorded.

1.4.40 Consumer Information System (CIS):

- 1 All details pertaining to a consumer are fed in the computer and they are called Consumer Information System, (CIS) used as an alternative to Installation Card.

2.0 Section : 4 (b) (ii) : The powers and duties of its officers and employees :-

Sr. No.	Designation	Grade	On roll staff
1	Divisional Engineer	A-3	1
2	Superintendent	A-4	1
3	Asst. Engineer	A-5	2
4	Deputy Engineer	G/G- VI	3
5	Sub Engineer	G/G-V	1

2.1 The Powers & Duties of Deputy Chief Engineer (Customer Care)

The Dy. Chief Engineer is in charge of each zone of Customer Care Department. The duties and responsibilities of the Deputy Chief Engineer in respect of Customer Care Department are:

1. He is responsible to the Chief Engineer (Customer Care) for the administrative and general control of all the service apparatus and its installing on consumers' premises and of the officers and staff of the divisions under him.
2. He shall be responsible for matters affecting electric supply to consumers, including development of load.
3. He shall exercise general supervision control and co-ordinate the work of the zone of Customer Care Division with other divisions working under him.
4. He shall normally be the final authority on all technical decisions, but all important decisions involving heavy expenditure or major procedural changes shall be referred to the Chief Engineer Customer Care for advice and orders, wherever necessary.
5. He shall be competent to order, transfer and posting of all scheduled and non-scheduled staff and shall exercise powers in respect of grant of leave etc. to the extent delegated to him.
6. He shall satisfy himself that the staff employed is actually necessary and adequate and carefully watch the expenditure on works, operation and maintenance etc.
7. He shall normally correspond direct with officers of equal status in the Undertaking, the Municipality and the Government and other outside departments on all matters connected with his duties, but on subjects of importance he shall put up draft replies for approval by the Chief Engineer Customer Care and / or the Higher Authority.
8. He shall be responsible for estimating the requirements of material and taking action with the Material Management Department for recouping necessary stock of materials required for new services and for the maintenance of service installations.
9. He shall represent the Undertaking on the Association of Electrical Undertakings, Government Controlled Committees and other public bodies, and deal with matters arising from the same. He shall, however, report to the General Manager through the Chief Engineer Customer Care

/AGM(S)/DGM(ES) on important matters dealt with these Committees.

10. He shall deal with electricity supply tariffs and negotiate the terms and conditions with the consumers for supply agreements and for acquiring of substation sites, where such sites are required in connection with the supply of energy to consumers concerned.
11. He shall be responsible for preparing the annual report, budget estimates and establishment schedule concerning the divisions under him.
12. He shall put up, through Chief Engineer Customer Care /AGM(S)/DGM(ES) technical reports and draft notes for appropriate sanction of the Committee or the General Manager in respect of matters concerning the divisions under him.
13. He shall initiate policy matters and put up his proposals and recommendations for the decision of the Chief Engineer Customer Care /AGM(S)/DGM(ES), G.M. or the Committee, as the case may be.
14. He shall monitor the cases of pending electricity arrears above ` 50,000.00, also he shall monitor the replies of MCA queries within his zone.
15. He should monitor progress of substation cases, in case no response from developer, no extension should be granted for temporary supply and he should submit report of such cases quarterly to CECC/DGMES.
16. In addition to the above any work assigned by Chief Engineer Customer Care AGM(S)/DGM(ES) /GM.

2.2 The Powers & Duties of Divisional Engineer

2.2.1 Divisional Engineer (Customer Care) :-

The Divisional Engineer, shall be directly responsible to Deputy Chief Engineer (Customer Carest) and is the Executive officer in charge of the Customer Care Ward. He shall be 1 Appellate Authority under the Right of Information (RTI) Act 2005.

1. Executing all duties and functions of the DCE(CC) enumerated in **1.1.4**, so far as they concern the Customer Care Division.

2. The duties of T-5 Grade Meter Inspectors are to install Bus Bars in Meter cabin, to install CT operated meter and also all the jobs carried out by T-4 Grade Inspectors.

2.12 Duties of Meter Inspector (Fuse Control Section) :

1. T-4 Grade Meter Inspectors are working in Fuse Control and they are called as Fuseman. Duties of Fusemen are restoration of supply against fuse messages received from the consumers, to replace the burnt/damaged meter in case of off supply. CRU van is working in all the 3 shifts for replacing burnt/damaged meter.

2.13 Duties of Carpenter :

The duties and responsibilities of the carpenter shall be :

1. Drilling holes on meter boards of various sizes for wiring purpose.
2. Altering the sizes of meter boards, whenever required.
3. Preparing wooden battens and boards required for meter installations :
4. Repairing shop furniture, whenever required.
5. Removing meter boards and installing new ones on site in difficult cases where the job could not be carried out by the Meter Inspector.

2.14 Duties of Assistant Wireman :-

The duties and responsibilities of the Assistant Wireman shall be :

1. Carrying out wiring of meter boards of various sizes for installing single and three phase meters.

2. Replacing old wiring of meter boards, whenever necessary.
3. Soldering the joints of neutral tapping's on the rear of the meter boards.
4. Assisting the Meter Inspector in channeling wires for busbar connections.

2.15 Duties of Nawghanies :-

2.15.1 Nawghanies in Customer Care

The duties of the Nawghanies shall be :

1. Loading and unloading of meters and meter boards into or from the vehicle.
2. Carrying meters, meter boards, tool kit, megger, etc. to the site of installation or as the case may be.
3. Sweeping the shop floor and dusting the furniture.
4. Giving manual assistance to the Meter Inspector in installing or removing of meter boards or meters.
5. Varnishing old meter boards, and stenciling number and date on old and new meter boards.
6. To carry Accucheck bags with Inspectors and Sub Engineers.
7. Removed meter from site and to keep in the office.
8. To bring Reading files from record room to wards, vice versa whenever required.
9. To send reading files to EDP as per daily schedule.
10. Sort / out/cut disconnection memos received from EDP Department.

Responsibility:

1. To take care of Accucheck bag, for maintenance.
2. To keep meters properly which brought from sites.

2.16 Duties of Assistant Administrative Manager (ES) A-5 :-

1. He is Public Information Officer (PIO) under the 'Right to Information Act, 2005' and Record Officer for the respective CC ward.
2. As per the Section 6 of the MERC's Regulations, the BEST Undertaking is required to establish suitable Internal Grievance Redressal (IGR) Cell to record and redress grievance in a timely manner. Accordingly, Procedure Order No. 156 dated 29.01.2007 was issued informing all concerned regarding procedure to be adopted by IGR Cell. He is directly responsible for attending Annexure-C complaints and all other complaints under CGRF Regulation.

3. While carrying out their duties Complaint Officers, IGR Cell, these officers will have to interact with the officers and staff members of their respective wards of Customer Care Department. The following guidelines are therefore issued for information of all the office and staff members concerned.
4. The Complaint Officer, IGR Cell, is mainly responsible of work of IGR Cell Consumer's grievances submitted on Annexure 'C' Format, other administrative work related to IGR Cell and day to day work entrusted by respective Superintendent.
5. However, the IGR Cell, as the name itself suggests, is an Internal Grievance Redressal system and the post of Complaint officer is on the roll of Customer Care Department. As the Complaint Officer is an integral part of Customer Care Department, he will have full authority, as per his Grade, over the officers and staff members of his ward as far as carrying out his duties.
6. Till a separate staff is given to IGR Cell, a complaint in Annexure C format shall be received by Sup. (Enquiry) at each ward and forwarded immediately to the IGR Cell, if a complaint in Annexure C format is received by post, the Complaint Officer, IGR cell will give acknowledgement in five working days.
7. As per Section 2.1 (c) of MERC's Regulations, "Grievance" means any fault, imperfection, shortcoming or inadequacy in the quality, nature and manner of performance, Further, Section 2.1. (d) states that IGR Cell means the first authority to be contacted by the consumer for redressal of his grievances. This implies that any complaint with a "Grievance" should be recorded by the IGR Cell and redressed as per the procedure, even though it may not be in Annexure C format. However, as directed vide Procedure Order No. 156 dated 29.01.2007, their record will be kept separately.
8. The Complaint Officer, IGR Cell, will forward the complaint in Annexure C format and other complaints of "Grievance" to the Ward In Charge concerned. The Ward In Charge will within a week discuss the grievance with concerned Supdt.(ES) jointly with the Complaint Officer along with all the relevant papers. In the joint meeting, discussion will be held on the actions taken so far and the actions proposed to be taken by the Ward In-charge. Where there is no Supdt.(ES) or in absent of Supdt.(ES) the ward in-charge will hold discussions with the Complaint Officer. The decisions taken during the discussion will enable the complaint Officer, IGR Cell to send an interim reply to the consumer under his signature.
9. A copy of this interim letter will be marked to the Ward In-charge concerned to take necessary balance actions, if any, regarding redressal of the grievance of the consumer within reasonable time.
10. As per the Point No. 4.8 of the Procedure Order No. 156 dated 29.01.2007, the consumer is to be informed about the procedure to approach the Consumer Grievance Redressal Forum (CGRF), Colaba, if he is not satisfied with the actions taken by the IGR Cell. This implies that the actions taken or proposed to be taken by the Ward In-charge concerned will be considered as actions taken by the IGR Cell and the same will have to be defended by the Complaint Officer IGR Cell at CGRF, Colaba or at Electricity Ombudsman, Bandra. Hence, it is absolutely necessary that the Ward In-charge concerned takes actions strictly as per provisions of Electricity Supply Code and routes his proposals in connection with Annexure C complaints for Managements sanction through AO Customer Care, i.e. Complaint Officer, IGR Cell. It will be duty of AO Customer Care to ensure that the Ward In-charge submits his proposal for Managements sanction in time.

11. As per the Point No. 4.9 of the Procedure Order No. 156 dated 29.01.2007, the Complaint Officer, IGR Cell is required to maintain the records pertaining to the complaint in respect of investigation reports, important documents etc. for each case separately. The case records and register are to be maintained properly so as to retrieve them immediately if reports are called for by CGRF or by the Electricity Ombudsman. Hence, after all the actions have been taken for redressal of the grievance of a consumer, the connected papers will be forwarded to IGR Cell by the Ward In-charge for preserving the same in IGR Cell for three years. This will enable the Complaint Officer to submit para wise comments within 15 days to CGRF, if the consumer approaches CGRF. The Ward In Charge will maintain the record of other complains with "Grievance".

2.17 Duties of Sr. Administrative Officer (ES) A/G X :-

The Sr. Adm. Officer shall be directly responsible to Divisional Engineer to assist him in administrative work. He has one Adm. Officer and four Asst. Adm. Officer and other supervisors/staff. He has to look after the work of Adm. Officer and four Asst. Adm. Officer as per following works and section.

4.0 Section : 4 (b) (iv) : The norms set by it for the discharge of its functions

The Electricity Act, 2003 determines law relating to generation, transmission, distribution and use of electricity. This act is applicable to the BEST Undertaking. With the enactment of Electricity Act, 2003, Maharashtra Electricity Regulatory Commission (MERC) has defined MERC (Standards of Performance of Distribution Licensees, period of giving Supply and Determination of Compensation) Regulation, 2005 wherein norms are defined for the various activities required to be carried out by the Customer Care Departments, which are as follows :-

Standards of Performance of Distribution Licensees

	Supply Activity / Event	Standard
1. Provision of Supply		
i)	Time period for completion of inspection of applicant's premises from date of receipt of application	Seven (7) days
ii)	Time period for intimation of charges to be borne by applicant from date of receipt of application	
	- In case connection is to be from existing network	Fifteen (15) days
	- Where extension of distribution main or commissioning of substation is required	Thirty (30) days
iii)	Time period for provision of supply from date of receipt of completed application and payment of charges	
	- In case connection is to be from existing network	One (1) month
	- Where extension or augmentation of distributing main is required	Three (3) months
	- Where commissioning of substation is required	One (1) year
2. Restoration of supply		
i)	Normal Fuse Off Call	Three (3) hours
ii)	22 kV / 11 kV / 415 V overhead line breakdown	Four (4) hours
iii)	Distribution transformer failure	Eighteen (18) hours
iv)	Underground cable fault	Eight (8) hours
v)	Burnt Meter	Eighteen (18) hours
3. Quality of supply		
i)	Maintenance of voltage within the specified range of the declared voltage	In case of low or medium voltage, within 6 percent of

		the declared voltage
		In case of high voltage, within 6 percent on the higher side and within 9 percent on the lower side of the declared voltage
		In case of extra high voltage, within 10 percent on the higher side and within 12.5 percent on the lower side of the declared voltage.
ii)	Control of the harmonics level at the point of supply	As per IEEE STD 519-1992
4. Meters		
i)	Meter inspection in case of customer complaint regarding meter	Four (4) days
ii)	Replacement of meter if found faulty	Within subsequent billing cycle
5. Reconnection		
i)	Reconnection of a consumer who has been disconnected for less than six (6) months from the time of payment of either all amounts to the satisfaction of the Distribution Licensee or, in case of a dispute such amount under protest in accordance with the proviso to Sub Section (1) of Section 56 of the Electricity Act, 2003	Four (4) hours
6. Complaints on consumer's bills		
i)	Acknowledgement of receipt of consumer complaint	Immediately if complaint is filed / lodged in person or telephonically Seven (7) days if made by post
ii)	Resolution of billing complaints i) About electricity bills regarding non receipt of bill or inadequate time for payment. ii) In case of other complaints	Within Twenty Four (24) hours of receipt During subsequent billing cycle
7. Complaints charter / service		
i)	Visible display of name tag by authorized representative of Distribution Licensee and he should produce / show proof of identity and authorization if consumer asks	All interactions with consumer
8. Other services		

i)	Reading of consumer's meter	Once in every three (3) months (agricultural) Once in every two (2) months (all other consumers)
ii)	Time period for other services from the date of application	
	- Change of name	Second billing cycle
	- Change of tariff category	Second billing cycle
	- Reduction in contract demand / sanctioned load	Second billing cycle
	- Closure of account – Time period for payment of final dues to consumer from the date of receipt of application for closure of account	Thirty (30) days (Class 1 cities and Urban area) Forty Five (45) days (Rural areas)

To define norms, the BEST Undertaking has also framed Terms & Conditions of Supply and schedule of Charges, which is approved by MERC (which is available on website viz. www.bestundertaking.com).

5.0 Section : 4 (b) (v) : The rules, regulations, manuals and records held by it or under its controls or used by its employees for discharging functions

For discharging various duties by the officers and staff of department, following documents are referred :-

- (1) Electricity Act, 2003
- (2) Indian Electricity Rules
- (3) MERC (Standards of Performance and Distribution Licensees, Period of Giving Supply and Determination of Compensation) Regulations, 2005.
- (4) MERC (Electricity Supply Code and Other Conditions of Supply) Regulations, 2005.
- (5) MERC (Consumer Grievances Redressal Forum & Electricity Ombudsman) Regulations, 2006.
- (6) Electricity Consumers – Rights Statement framed by BEST Undertaking and approved by MERC.
- (7) Terms & Conditions of Supply and Schedule of Charges framed by BEST Undertaking and approved by MERC.
- (8) Tariff Order
- (9) Standing Orders / Service Regulations / Officer Orders / Procedure Orders / various Administrative

Orders

(10) Central Electricity Authority Regulation (for Meters)

6.0 Section : 4 (b) (vi) : The statement of the categories of documents that are held by it or under its control

List of Files

- 1) Technical Clearances for load release above 25 KW
- 2) New Service Connections
- 3) ID Papers
- 4) Load Certificate
- 5) S.R. File
- 6) Standing Orders
- 7) Service Regulations
- 8) Departmental Manual
- 9) Committee & Corporation Matters / Committee
- 10) Circulars, Misc.
- 11) Procedure Orders
- 12) Technical Standards
- 13) Administrative Report

7.0 Section :4 (b) (vii) : The particulars of any arrangement that exists for consultation with or representation by the members of the public in relation to the formulation of its policy or implementation thereof.

MERC, on exercise of powers conferred by section of Electricity Act, 2003 notifies various regulations, which are applicable to BEST Undertaking. On draft regulations, comments and suggestions are invited from consumers, representative of Consumer Forum and other organizations. The public hearing is held, which is attended by the representative of consumers, Consumers Forum, other organizations. During the hearing, discussions are held on suggestions and comments received from these groups. BEST undertaking also offer comments on the issues during the hearing. Subsequently, considering the same, regulation is framed by MERC.

Also periodical meetings are held with the representative of consumer and with the members of various Electrical Contractors Association. Based on the suggestions, for smooth function of department, if require procedure / administrative order are passed.

8.0 Section : 4 (b) (viii) : A statement of the boards, councils, committees and other bodies consisting of two or more persons constituted as its part or for the purpose of its advice, and as to whether meetings of those boards, councils, committees and other bodies are open to the public or the minutes of such meetings are accessible for public.

(a) B.E.S.T. Committee - Members of the BEST Committee are appointed by the Municipal Corporation of Brihan Mumbai. These members have had experience in administration, financial and labour matters of transport or electric supply. Some of these members are councilor elected by the public. The BEST

Committee normally meets once in a fortnight and if found necessary at other times. The BEST Committee has right to frame Regulations, formulate policy, and approve contracts each involving expenditure exceeding Rs. 10 lacs and to approve the Budget Estimate of the undertaking.

(b) Review Committee – This committee deals with the various claims initiated by the Undertaking against unauthorized use of Electric Supply, Direct Supply, Meter Tampering etc. Based on the documents / inspection reports available on record, the revised amendment if required, is worked out by the Committee.

(c) Consumer Grievance Redressal Forum - The forum is established for redressal of grievances of consumers. The Forum is constituted by three members who are as follows:

(I) The Chairperson of the Forum is a retired senior judicial officer.

(II) One member is a officer in the rank of Divisional Engineer of the Undertaking. (III)

One member is a representative of a registered consumer grievances organization.

Initially, the consumer is required to approach Internal Grievances Redressal Cell (IGR) of each Customer Care Dept. In the event that a consumer is not satisfied with the remedy provided by the IGR Cell to his Grievance within a period of two (2) months from the date of intimation, the consumer may submit the Grievance to the said Forum. The detail procedure of CGRF is available on our website: <http://www.cgrfbest.org.in>

9.0 Section : 4 (b) (ix) : A directory of its officers and employees :-
